## Washington Dispatches

Transactions of the Senate  
and House.

### A NUMBER OF BILLS PASSED.

In the Senate the Silver Bill is Laid Aside  
and the Regular Calendar Taken Up.  
Tariff Talk Takes Up the Time of the  
House.

WASHINGTON, May 15.—In the senate  
yesterday senate bill authorizing the  
registry of census mail matter, house  
bill appropriating \$80,000 for a public  
building at York, Pa., and senate bill  
appropriating \$100,000 for a public  
building at Rock Island, Ill., were  
passed.

The silver bill was then taken up and  
Mr. Teller addressed the senate.

Without concluding his speech, Mr.  
Teller at 2:30, yielded to a motion to go  
into secret executive session. The doors  
were reopened at 3:05, and on motion of  
Mr. Ingalls, the silver bill was laid  
aside informally, and the senate pro-  
ceeded to business on the calendar.

The following bills, among others,  
were passed: Senate bill granting right  
of way to the Red Lake and Western  
and Navigation company across the Red  
Lake reservation, in Minnesota, and  
granting said company the right to  
take lands for terminal railroad and  
warehouse purposes; senate bill, to pro-  
vide for the issuing and recording of  
commissions in the department of the  
treasury; senate bill, for the relief of  
Maj. Goodloe, paymaster United States  
Marine corps, crediting him with sums  
lost through the defalcation of his clerk;  
senate bill, for the relief of the Norfolk  
County Ferry company, refunding \$42,-  
300 for tolls withheld by the commissary  
department of the army during the war;  
house bill, for the sale of certain lands  
belonging to the United States in Pitts-  
burg, Pa.; house bill, to amend the act  
of June 18, 1888, authorizing the county  
of Laurens, Ga., to construct a bridge  
across the Oconee river at Dublin.  
In that county, extending the time, and  
house bill, authorizing the construction  
of a railway bridge near the same place;  
house bill, to amend the act of Jan. 8,  
1889, authorizing the Cairo and Ten-  
nessee River Railroad company to con-  
struct bridges across the Tennessee and  
Cumberland rivers; senate bill, in re-  
lation to the pay of Rear Admiral James  
E. Jouett, retired, allowing him the  
highest pay and compensation of his  
grade as rear admiral; senate bill, to  
pay \$3,205 to the heir or heirs of John  
Howard Payne, due on his salary as  
consul to Tunis.

At 4:30 the senate adjourned.

### In the House.

WASHINGTON, May 15.—After the  
routine opening of the house the tariff  
bill was at once taken up in committee  
of the whole. After considering sixteen  
of the 156 pages of the bill the com-  
mittee rose and the house, at 6 o'clock, ad-  
journed.

### Indian Legislation Asked For.

WASHINGTON, May 15.—The president  
sent to the senate a communication of  
the secretary of the interior, with ac-  
companying papers, concerning the con-  
dition of the northern Cheyenne Indians  
at Pine Ridge agency, S. Dak. Inspector  
Armstrong writes to the commissioner  
of Indian affairs that these Indians and  
those at the Tongue River agency, Mont.,  
should be concentrated at one  
agency, and states that they are dis-  
satisfied and refuse to remain at the  
Pine Ridge agency. They are dissatis-  
fied chiefly because of the abuse they  
meet with at the hands of the Sioux.  
As the Tongue River reservation is not  
sufficient for both tribes, he recom-  
mends that a commission be appointed  
to select a joint reservation for the  
united tribes and to conduct the nego-  
tiations with them for their removal.  
The president approves the recom-  
mendation of the secretary of the in-  
terior, for the establishment of a com-  
mission to remove these Indians to the  
Crow or some other reservation.

### A Necessary Law.

WASHINGTON, May 15.—The com-  
mittee on the judiciary reported to the  
senate a substitute for the bill subjecting  
imported liquors to the laws of the sev-  
eral states as follows:

"Be it enacted, etc., that no state shall  
be held to be limited or restrained in its  
power to prohibit, regulate, control or  
tax the sale, keeping for sale, or the  
transportation as an article of commerce  
or otherwise to be delivered within its  
own limits, of any fermented, distilled  
or other intoxicating liquids or liquors,  
or liquors by reason of the fact that the  
same have been imported into such state  
from beyond its limitations, whether  
there shall or shall not have been paid  
thereon, any tax, duty, import or excise  
to the United States."

Mr. Hoar explained to the senate that  
the law was rendered necessary by a re-  
cent decision of the supreme court.

### KILLED BY A CAISSON.

Another Accident at the New Louisville  
and Jeffersonville Bridge.

LOUISVILLE, May 15.—About 6 o'clock  
yesterday evening while workmen were  
engaged in the construction of the upper  
part of a caisson used in the excavation  
work for pier foundations of the new  
Louisville and Jeffersonville bridge, the  
caisson, while being shifted in the strong  
mid-river current, broke from its moor-  
ing. The air chamber, fourteen feet be-  
low the surface, was filled with com-  
pressed air, and when the hawsers parted  
the buoyancy of the submerged portion  
of the twenty-eight-foot caisson caused  
it to suddenly turn over, carrying with  
it the scaffold and eighteen workmen.  
The following named were killed: C.  
P. Mitchell, of Kansas City, second as-  
sistant superintendent of construc-

tion, impaled on an iron rod  
projecting from the side of the  
lower portion of the caisson; Charles  
Sanders, a carpenter, crushed between  
the caisson and scaffolding support, and  
Joseph Waldron, colored, laborer,  
drowned.

The other fifteen workmen, some of  
whom were slightly injured, were res-  
cued by boats.

### QUARTERS TOO FINE.

Singular Grievance of the Officers at Fort  
Sheridan.

CHICAGO, May 15.—There is a funny  
condition of affairs at Fort Sheridan,  
near here, and officers on duty there are  
doing their best to secure influence that  
will get them away as soon as possible.  
The buildings now in course of con-  
struction there will be the finest in the  
country, and the officers' quarters will  
be elegant.

The situation was explained by Capt.  
Penny, one of the senior officers sta-  
tioned at the fort.

"The government is erecting a lot of  
residences for the officers," he said, "on  
a scale of grandeur far beyond what we  
have been accustomed to, and in the  
nature of things far beyond the require-  
ments of the service. It will take a whole  
year's pay to furnish one of the new  
houses so that it will not look bare. Then  
suppose an officer is willing to pay a  
year's salary that way."

"Just as likely as not he will be ordered  
to Mexico or Wyoming territory at  
twenty-four hours' notice, and as the  
government only allows a captain 1,000  
pounds of baggage he must either leave  
all his fine things behind him or sell  
them for whatever he can get. If he  
could take them away they would be of  
no use to him, for his quarters out there  
are most apt to be a tent or a hut."

### NO MORE POLICY.

The Kentucky Legislature Repeals the  
Charter Granted Years Ago.

FRANKFORT, Ky., May 15.—One of the  
most dangerous lottery schemes that  
ever stained the fair name of Kentucky  
was knocked out yesterday by Governor  
Buckner signing a bill repealing the  
charter of the Paducah Woodenware  
company, which was passed in 1893.  
Policy Bill Smith, of Cincinnati, owns  
the franchise, and operates policy shops  
in Covington under it.

A man named Durrell, also of Cincin-  
nati, sold the franchise to Smith, and a  
year or so ago Durrell and Smith had a  
very hot fight in the Cincinnati courts  
over monthly payments Smith was to  
have made to Durrell. The jury dis-  
agreed and the case never came up again.  
Governor Knott was the chief executive  
of Kentucky when the scheme was  
worked through the legislature, and did  
not understand the bill until it was too  
late to veto it, and policy shops were at  
once opened up in Covington. The Pa-  
ducah company never organized and  
never expected to. Senator Goebel, by  
his efforts for justice and good govern-  
ment, had the charter repealed. Smith's  
policy business in Kentucky will now  
have to close up, as he has no charter to  
work under.

### MYSTERIOUSLY MISSING.

A Prominent Cincinnati Disappears Under  
Peculiar Circumstances.

CINCINNATI, May 15.—Capt. William  
H. Fifield, aged 50, clerk of the Cincin-  
nati hospital, has been mysteriously  
missing ever since last Sunday evening.  
A week ago he was promoted from the  
position of night clerk to that of day  
clerk. The change of hours caused in-  
somnia and nervousness. Sunday after-  
supper he went for a walk, and has not  
been seen since.

There is not the slightest clew to his  
whereabouts or to the cause of his dis-  
appearance. Capt. Fifield has been con-  
nected with the hospital for twenty  
years. He was of quiet, sober habits,  
and an unusually faithful and honorable  
employee. During the war he was cap-  
tain in the Fourth Ohio regiment.

### Shower of Fish.

MARION, Ind., May 15.—At Swazee,  
Tuesday morning, the residents were  
catching fish out of the pools and pud-  
dles made by Monday night's terrific  
rain. Later, when the water sunk into  
the ground, sunfish and shiners by the  
thousand strewed the ground. There is  
no stream within four miles of Swazee,  
and the theory is that these sunfish were  
caught up by a whirlwind and deposited  
where they were found.

### Insubordinate Students.

BATAVIA, N. Y., May 15.—Eleven  
students have been expelled from the  
Batavia Institution for the Blind,  
charged with insubordination. They pe-  
titioned the legislature for the removal  
of Horace K. Smith, teacher of pino  
tuning, claiming that he is incompetent.  
The executive committee of the board  
of trustees investigated the matter, sus-  
tained Mr. Smith and dismissed the  
petitioners.

### A Judgment for the Government.

INDIANAPOLIS, Ind., May 15.—Yester-  
day Judge Woods, of the United States  
court, gave judgment for the govern-  
ment for \$1,250 against Mary Burton, of  
Shelbyville, in a case where Pension At-  
torney Wilson had a marriage annulled  
for the purpose of getting a pensioner  
restored to the rolls.

### Too Free With His Gun.

CANTON, O., May 15.—Charles Paige,  
a colored man, while beating his wife  
with a rolling-pin, drew a revolver on a  
neighbor who attempted to interfere.  
The weapon was accidentally dis-  
charged, the bullet striking Paige on the  
side of the head, inflicting probably a  
fatal wound.

### Brazos River Overflowed.

HOUSTON, Tex., May 15.—The Brazos  
river is rising at Richmond and Colum-  
bia. The International railroad track is  
five feet under water, and traffic is sus-  
pended. The Southern Pacific track  
will probably be submerged in a few  
hours.

## A Desperate Mayor.

Cedar Keys, of Florida, Wild  
With Excitement.

### PEOPLE IN A STATE OF TERROR.

The Mayor and City Marshal Have Things  
Their Own Way Until the United States  
Authorities Step In and Interfere by  
Arresting the Latter, and the Former  
Escapes.

CEDAR KEYS, Fla., May 15.—Four  
deputy United States marshals arrived  
here late last night for the purpose of  
arresting Mayor Cottrell and his mar-  
shal, Mitchell, on the charge of assault-  
ing Custom Collector Pinkerton, and in-  
terfering with him in the prosecution of  
government business. The action of the  
authorities is the result of a long series  
of outrages perpetrated by Cottrell, in  
most of which he has been aided and  
abetted by Marshal Mitchell. A genuine  
reign of terror has existed here, the full  
details of which will probably never be  
known until Cottrell is safe behind the  
bars, for the people do not dare to speak  
against him so long as he is at liberty.  
The United States officers succeeded in  
arresting Mitchell, but Cottrell was ap-  
prised of their coming, and is now in  
hiding. They are on his trail, however,  
and hope to arrest him soon.

Cottrell, besides the office of mayor,  
has been inspector of customs. He had  
charges preferred against him at the  
treasury department in Washington and  
was forced to resign his position. This  
was after the appointment of Collector  
Pinkerton by President Harrison. A  
week ago Cottrell met Pinkerton and  
asked him to open the custom house to  
get some things he had left there. Pink-  
erton refused, as it was after office  
hours. Cottrell then threatened Pink-  
erton's life, and Cottrell gave notice that  
if he appeared on the streets of Cedar  
Keys he would be shot by Cottrell.  
Pinkerton did not leave the house for a  
day or two, and Cottrell tried to per-  
suade a negro to go in and pull him out.  
The negro refused and was beaten by  
Cottrell. Pinkerton was kept from go-  
ing to the office by the fact that Cottrell  
was gunning for him on the streets, and  
the business of the United States gov-  
ernment was thus seriously interfered  
with.

For about a year Cottrell has been a  
terror to the citizens here. He has com-  
pelled a negro to beat a telegraph opera-  
tor; he has threatened to thrash women  
whose husbands had incurred his dis-  
pleasure; he has kept men locked up in  
jail for days at a time for no cause  
whatever; he has paraded the streets with  
a loaded shotgun threatening to kill any-  
body who came in his way; has shot at  
the lighthouse keeper in the street; has  
cut another man with a jackknife, and  
has actually forced a re-election as  
mayor because it was worth a man's  
life to vote against him. Those who  
know Cottrell say he will never be taken  
alive, and it is rumored that he will  
come to town and attempt the rescue of  
Marshal Mitchell.

### Derby Day at Louisville.

LOUISVILLE, Ky., May 15.—There  
were 15,000 people at the race track yester-  
day, the chief attraction being the  
great Kentucky derby race for three-  
year-olds, \$2,500 added, mile and a half.  
It rained until noon, and the course was  
very muddy and sloppy. There were  
six starters in the derby. Robespierre  
sold favorite in the pools, with Riley  
next and Fonsa a good third. The other  
starters were Letcher, Pulisade and Out-  
look. Riley won by a length, Letcher  
second and Robespierre third. Time  
2:45.

### Horrible Crime by a Farm Hand.

OVID, Ind., May 15.—Luther Dolph, a  
farm hand in the employ of Isaac Smith,  
in the absence of Mr. Smith and his  
wife, went to the house, bound and  
gagged their 14-year-old daughter, and  
brutally assaulted her. She is not ex-  
pected to live. Dolph escaped. Last  
summer Dolph criminally assaulted a  
young married woman named Stabler.

### Knights of Honor in Session.

DETROIT, Mich., May 15.—Every state  
and territory is represented in the Na-  
tional convention of the Knights of  
Honor, now in session here. The con-  
vention will discuss the advisability of  
an assessment to make up for the drain  
on the treasury, caused by the unusually  
large number of deaths during the year.

### Four Years for Bigamy.

MONTREAL, May 15.—W. H. Bothwell,  
who, while married to Miss Orth, of  
Philadelphia, came to St. Johns, this  
province, last November and married  
Miss Bean, pleaded guilty yesterday to a  
charge of bigamy, and was sentenced to  
four years in the penitentiary.

### Died Away From Home.

PHILADELPHIA, May 15.—A dispatch  
from London announces the death at  
midnight last night, of W. W. Thurston,  
aged 33 years, president of the Bethle-  
hem Iron company and president of  
the Juracon Iron company, of Cuba.  
He will be buried in London.

### Chicago Strike Over.

CHICAGO, May 15.—The strike at the  
Malleable Iron company's works is prac-  
tically over. Several hundred men, in  
addition to those who returned yester-  
day, reported for work this morning.

### Bounty on Canadian Ore.

OTTAWA, Ont., May 15.—In the house  
of commons yesterday a bill was passed  
providing for the payment of a bounty  
on pig iron made from Canadian ore.

### Hat Sizers Strike.

NEWARK, N. J., May 15.—Twenty-six  
hat sizers in the hat factory of Carl F.  
Zeith went on a strike yesterday for an  
increase of six cents a dozen.

### BALLOTING FOR A SENATOR.

The Kentucky Legislature Trying to Se-  
lect Senator Beck's Successor.

FRANKFORT, Ky., May 15.—The first  
day's balloting for United States senator  
by the legislature in joint session began  
yesterday exactly at 12 o'clock. John G.  
Carlisle received 44 votes; R. T. Breckin-  
ridge, a brother of W. C. P. Breckin-  
ridge, 6; Judge John Cooper, 7; Ben  
Lee Hardin, 7; McCreary, 1, and Ben  
F. Bradley, 6.

Complimentary votes were cast for  
Judge Menzies, of Covington; Judge  
Hargis and E. L. Worthington, of Mays-  
ville.

The legislature then adjourned.  
In the evening a caucus was held and  
four ballots taken, the first three being  
scattered among about twenty men some  
of whom had not been named before the  
caucus.

The fourth and last ballot taken be-  
fore adjournment was the most satisfac-  
tory one taken, coming nearer showing  
the strength of the candidates than any.  
It resulted: Carlisle, 39; Lindsay, 29;  
Knott, 16; McCreary, 12; Moore, 12; Set-  
tle, 7.

Every vote in the caucus was re-  
presented except that of Judge Lindsay,  
who, being a candidate, did not vote.

Fifty-nine votes are necessary to a  
nomination.

Mr. Norman, of Henderson, who voted  
for Knott on the last ballot, said after  
the caucus that Carlisle would certainly  
receive the nomination. He said he  
knew of six additional votes that he  
will get when the balloting is resumed.  
The surprise of the evening was the  
strength Carlisle is developing in west-  
ern Kentucky. Judge Walker's change  
to Carlisle after having seconded Mc-  
Creary's nomination, was considerable  
of a bombshell in the ranks of the op-  
position. Walker says his people have in-  
structed him to support Carlisle.

The result of last night's work demon-  
strates that the contest is to be pro-  
longed, but contrary to expectations,  
Carlisle's friends now claim, and with a  
show of reason, that he will gain  
strength the longer the fight lasts. It is  
now clearly evident that there is a com-  
bination against Carlisle, between Lind-  
say, Moore and Knott. The Carlisle  
men have been narrowly watching that  
movement, and though fully alive to the  
peril of their chance, they express  
no fear that his cause was in danger.  
The contest may now be considered  
as between Carlisle and the field, with  
the chances in the former's favor.

### TO ANNEX CANADA.

A Sea Irish Order Formed 10,000 Strong  
for That Purpose.

BOSTON, May 15.—A Montreal special  
to The Herald says it is rumored that a  
new secret Irish association, with a  
membership of 10,000, has been formed,  
with its head centers in that city and  
Quebec, its object being antagonistic to  
British rule.

Many prominent Irish citizens deny its  
existence, but one well known man on  
being interviewed, stated that he was  
interested in the matter, and that the  
society was being conducted on lines  
somewhat similar to that of the Clann-  
na-Gael.

It is thought that the principal object  
is to obtain money for the benefit of the  
Irish Home Rule party, and that the  
final object is the separation and annex-  
ation of Canada to the United States.  
There are many French as Irish mem-  
bers of the league.

A Frenchman, supposed to be a promi-  
nent member, stated that the organiza-  
tion was founded in Toronto by an Irish  
suspect named McBride, who had  
fled from his native country and was at  
present residing in Buffalo.

### RAILROAD CONDUCTORS.

A General Convention of the Order De-  
clares an Important Question.

ROCHESTER, N. Y., May 15.—The gen-  
eral convention of the Order of Rail-  
road Conductors yesterday decided by a  
very decisive vote, to eliminate from its  
constitution the clause prohibiting  
strikes. There has been a hot fight on  
this point and nobody believed that the  
amendment would be carried by such a  
sweeping majority until the vote was  
taken.

The amendment was opposed by the  
eastern delegates, and Grand Chief  
Wheaton was outspoken against it, and  
it was on this issue that he stood as a  
candidate for re-election. He will now  
withdraw from the contest for the posi-  
tion. The amendment was discussed  
Tuesday and yesterday for about two  
hours on each day, and when it was put  
to vote it was adopted, 210 to 65.

It looks now as though New York city  
might be selected for the place of next  
session, but nothing definite can be said  
on that point. The officers will proba-  
bly be elected Saturday.

### Strike Declared Off.

PITTSBURGH, May 15.—A special to The  
Times from Scotland says: The general  
strike that was to have been declared at  
Frick's works is off. The miners' com-  
mittee and General Manager Lynch held  
a conference yesterday afternoon and the  
miners withdrew their notices. The  
valley trouble about the filling of  
wagons, over which the strike was  
threatened, will be thoroughly investi-  
gated and a settlement is assured.

### Price of a Leg.

NEW YORK, May 15.—In the court of  
common pleas yesterday Angelo Geroni,  
aged 7 years, recovered a verdict of \$10,-  
000 against the National Navigation  
company, of Marseilles, for the loss of  
his left leg. On May 15, 1888, the boy  
was a passenger with his parents on the  
steamship Cashmere. His foot caught  
in the rudder chain and was so severely  
injured as to necessitate amputation at  
the knee.

### Shot While Resisting Arrest.

LITTLE ROCK, Ark., May 15.—W. J.  
Adams, a prominent citizen of Sharp  
county, was killed near Hardy, Ark., by  
Officer Morris. The latter attempted to  
arrest Adams, who resisted, when Mor-  
ris fired three shots, killing him.

# THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

THURSDAY, MAY 15, 1890.

For Judge of the Superior Court,  
L. W. ROBERTSON,  
of Maysville,  
Subject to the action of the Democratic party.

The Augusta editors should refer their differences to Mr. W. P. Campbell. Brothers Weldon and Stevenson are talking entirely too much about each other.

The Legislature has been in session one hundred and forty days. During that time 2,124 local and general bills have been introduced, and one-half of the number disposed of.

The Prohibitionists of Nicholas have nominated W. H. Bow for County Judge, N. W. Fowle for Clerk, J. M. Hughes for Sheriff, J. H. Lawson for Assessor and H. B. Sampson for Jailor.

The friends of Orrin B. Hallam, late Deputy First Auditor of the U. S. Treasury, are trying to get him to run for Judge of the Superior Court. He was a candidate six years ago, but Judge Ward defeated him.

SENATOR QUAY, Chairman of the Republican National Committee, hasn't uttered a word yet in denial of the charges of stealing and misuse of funds when Treasurer of Pennsylvania. Nice man to stand at the head of a great party.

Mr. McKINLEY declared a few days ago that the Republican victory of 1888 was a popular verdict for "protection." Has the gentleman from Ohio forgotten that the tariff reform candidate that year had about 100,000 majority on the popular vote?

HON. BOYD WINCHESTER, of Louisville, who was spoken of for U. S. Senator, has informed the Legislature he is not a candidate and he tells the members that this is no time for empty compliments. He is right, and the Solons ought to take his advice and get down to business.

The old soldiers may not like it, but the mass of the people will commend the Republican Senate for killing the Morrill Service Pension bill. The Senate Committee in reporting adversely on the measure said the bill would benefit those who do not need a pension at the expense of those who are in absolute want.

SENATOR FRYE, a Republican from the State of Maine, wants the Government to spend several million dollars a year to increase our commerce with foreign countries. At the same time his party is trying to push a bill through the House to erect a high tariff wall around this country. This isn't consistent. We can't expect other countries to trade with us if we don't trade with them.

THE HON. MR. BLACKERBY, Bracken County's Representative in the Legislature, is credited with favoring the election of Judge Laban T. Moore, of Catlettsburg, to succeed the late Senator Beck. This ought to settle the report that the Congressional bee has been buzzing about Mr. Blackerby's ears for some time. The gentleman from Bracken has an eye to the future. But he had better "look a leetle out." Judge Moore is a good man, but the Democrats of this district undoubtedly want to see ex-Speaker Carlisle succeed Senator Beck.

SHOE factories have proved such profitable enterprises at Portsmouth that her citizens don't hesitate to invest money in them. Four factories are now in successful operation there, another one is soon to be started and still another is among the probabilities. One was started on a capital of \$10,000, and now gives employment to fifty hands. We respectfully refer this subject to our Commercial Club. If the editor was able, he would guarantee that a shoe factory properly conducted here in Maysville would prove as profitable as any enterprise in town.

A FIRM engaged in the china and queensware business at Chicago displayed the following in their advertisement a few days ago:

The McKinley Tariff bill (for the reduction of the revenue), if it becomes a law on July 1, 1890, will cause an advance in prices about as follows:

Imported blown flint, top cup, table tumblers, 500 dozen just received—Our price, 75 cents dozen; McKinley price, \$1.15 dozen.

Haviland & Co.'s decorated dinner sets, in thirty-five new decorations, now arriving—Our price, \$30 to \$250; McKinley price, \$40 to \$315.

English printed dinner sets, in a large variety of decorations and patterns—Our price, \$8.50 to \$100; McKinley price, \$11.50 to \$135.

Retail department, French & Potter Co., Wabash avenue and Washington street, Chicago.

The increase of prices thus announced ranges from twenty-five to forty per cent., not one per cent. of which would go to American labor, but all of which is to increase the cost of living to every American household, says an exchange.

## The Republican Revolt.

The revolt in the Republican ranks against the McKinley Tariff bill is becoming more open every day.

Congressman Butterworth, one of the leading Republicans of Ohio, in his speech in the House a day or so ago, had the courage to kick clear out of the ranks and denounced the bill in unmeasured terms. He sounded the key note of the opposition to the bill when he inquired why "Paul should be favored and Peter turned down." In other words why should the government favor one class of her citizens at the expense of another—why should the masses be taxed to benefit ("protect") the classes? Mr. Butterworth asserted that "he could name capitalists whose profits had exceeded those of all the agriculturists in any State of the Union." Continuing he said "he had known of an industry that had been able to make \$60,000,000 dividends on a capital of \$1,250,000. The country could in such cases better afford to keep these men in the Fifth Avenue Hotel, pay their board and expenses and set them up in the banking business."

It's no trouble to see where this distinguished Ohio Republican stands on the tariff question. His speech will make an excellent campaign document for the Democrats. But he is not alone in the views he expressed. The Springfield Republican says:

"In order to enlighten the farmer as to the real animus of the McKinley revisionists, the Chicago Tribune prints a large picture representing McKinley as Joab of old taking Amasa, the farmer, by the beard to kiss him, and treacherously cutting him to death under the fifth rib with a knife labeled 'more tariff.' It is hard, indeed, to find a Western Republican newspaper in favor of the bill. The Milwaukee Sentinel says the measure is not what an important number of Republicans had a right to expect. The Atchison Globe declares that it is designed to enrich the few at the expense of the many; 'the many bear all the burden, the few reap all the benefit.' The Minneapolis Journal says: 'They have increased duties right and left without consulting the parties most interested or taking in the true situation.' The Omaha Bee says the bill disappoints the popular expectation that revision would be downward rather than upward, and so 'disregards a nearly universal and urgent demand which the party in power can not afford to ignore.'"

Truly, the friends of tariff reform have cause to feel greatly encouraged at the outlook. It was never brighter.

## The Railroads.

The "Big Four's" gross earnings in April were \$1,077,186, an increase of \$74,559 over the corresponding month last year. It is thought the road will earn \$14,000,000 this year.

One of the officials of the Pennsylvania road says the company is actually short of cars, notwithstanding the large additions to freight equipment of late. The company will in the next twelve months order 10,000 new cars of various descriptions. The Pennsylvania lines now own one-sixth of the total number of freight cars in use on all the railroads of this country.—Exchange.

In the United States Court in Covington Joseph C. Fennell filed his report as Special Commissioner in the case of Bliss & Gates against the Kentucky Central. The report recommends the allowance of \$5,000 to Mr. H. E. Huntington, Receiver of the Kentucky Central, and that the Receivership be discontinued. Since 1886, the time that Mr. Huntington took hold of the road as Receiver, he has received a little over \$18,000, and the \$5,000 additional, as recommended, is to be his total compensation as Receiver.

The Western Tobacco Journal says: "The general tenor of reports from all sections is that plants promise to be plentiful, but that transplanting will be generally later than last year—estimated from two to four weeks later, and in the case of Virginia and North Carolina this is pronounced unfavorable to a good crop of brights, as it is essential that plants get an early start to secure a bright cure."

## Siberian Outrages.

The Czar's Attention Called to the Existing Evils.

### BIG PETITIONS POURING IN.

America, England, Germany, France and Other Countries Appeal to Russia's Ruler in Behalf of the Siberian Exiles. Various Other Foreign Dispatches.

LONDON, May 15.—If the czar does not take steps to modify the workings and effects of the prison system in Siberia it will not be because the existing evils are not called to his attention, or at least to the notice of his ministers and others around him. Private dispatches from St. Petersburg state that petitions from America, England, Germany, France and other countries are arriving at the respective embassies and legations in great profusion, with requests that they be laid before the czar immediately.

Forwarding petitions to Russia is a comparatively easy matter, but laying them before the czar is quite another thing, and it is extremely doubtful that his imperial majesty will ever see a single one of the numerous appeals to his clemency in behalf of the Siberian exiles, though he will doubtless be informed as to their number, volume and character.

The government officials still stoutly aver that the reports of cruelties to prisoners in Siberia are wholly false and if anything is done to mitigate the condition of these unfortunate it is safe to say that it will be so quietly that nothing will ever be definitely known as to the character and extent of the modifications.

Emperor and Empress at Königsberg. KÖNIGSBERG, May 15.—The Emperor and Empress of Germany arrived here yesterday, and were received at the railway station by Dr. Von Schöckemann, governor of the province of East Prussia; Gen. Bronsart von Schellendorf, commander of the First army corps, whose headquarters are here, and the burgomaster of the city.

A guard of honor was also at the station, and when their majesties alighted from the train the band played "The Watch on the Rhine." The day was observed as a holiday and the streets of the city were handsomely decorated. The emperor and empress were presented with bouquets and addresses and their reception by the people was a most enthusiastic one.

The kaiser, in a speech at the banquet given in his honor in the castle at Königsberg yesterday evening, said: "I drink to the prosperity of East Prussia; may it be spared the horrors of war. Should, however, the duty be imposed upon me of defending the frontiers, the sword of East Prussia will deal with the enemy as it did in 1870."

### Wholesale Poisoning.

BERLIN, May 15.—A case of wholesale poisoning has occurred in Wurzen, Saxony, which has created widespread excitement and alarm. Several hundred persons are affected and fifty or more of them, mostly children, are seriously ill. Investigation discloses the fact that the victims had eaten bread made of flour which had been ground in a leaden machine. Most of the flour was purchased from two dealers, whose stock has been seized, and the authorities are conducting a searching examination of the flour in the hands of other dealers.

### Myers' Body Identified.

COPENHAGEN, May 15.—The corpse of Myers, who was murdered by his employer some time ago and his body shipped to New York for burial, arrived here on the steamer Thingvalla yesterday. The relatives of the murdered man identified the body by the ring upon the hand and a piece of walking stick which was in the barrel. Phillipsen, the murderer, has made a full confession of the murder, but maintains an air of stolid indifference.

### A War Cloud Described.

BERLIN, May 15.—In the course of his speech on the military bill in the reichstag yesterday Marshal Von Moltke said: "When the war, which, for the past decade, has hung over our head like the sword of Damocles, breaks out at last its duration cannot be foreseen. The mightiest of the powers, armed as they have never been before, will be engaged. It may be a seven or it may be a thirty years' war. Woe to him who sets the match."

### Greater Disaster Than Reported.

ROME, May 15.—The explosion of a balistile at Vigliand, Tuesday, was more disastrous than at first reported. Nineteen persons were killed, or have since died, and thirty were seriously injured. Of these several are hurt beyond recovery. There were 300 workmen present and scarcely one escaped without a mark of some kind. This is the fourth explosion that has occurred in the wrecked factory since 1873.

### "Jack the Ripper" Heard From Again.

BERLIN, May 15.—Lubeck is excited over the mysterious murder of a young girl, a daughter of a prominent lawyer of that city, named Peterson. The body was found in a horribly mangled condition, with evidences that the girl had been criminally assaulted before being butchered by some emulator of "Jack the Ripper."

### Riotous Strikers.

HAMBURG, May 15.—Yesterday witnessed a continuance of the riotous proceedings inaugurated by the striking gas workers. Aided by a number of idle persons, the strikers have engaged in conflict with the police, with the result of the wounding of several of their number, and the arrest of others.

### Paranellite Elected.

DUBLIN, May 15.—In the election to fill the parliamentary seat for East Galway, made vacant by the death of Mr. Matthew Harris, which took place yesterday, Mr. Roche, Paranellite, was returned without opposition.

### Strike Spreading.

PRAGUE, May 15.—The strike in this

city continues to spread. The strikers are indulging in riotous proceedings, making necessary the constant patrol of the streets by troops in order that peace may be preserved.

### Cotton Cornered.

LONDON, May 15.—A new cotton corner is being formed in Lancashire. A large quantity of American cotton is already cornered and prices are advancing.

### MURDERED FOR MONEY.

A Farmer, His Wife and Son Killed and Their House Robbed.

WASHINGTON, Pa., May 15.—The driver of the stage line running between Washington and Brownsville, gives a graphic account of a triple murder at Bentleyville, this county. John Crouch, a farmer, his wife and son Andrew, aged 35 years, living in the borough of Bentleyville, were found dead at their home with throats cut from ear to ear, at an early hour yesterday morning.

The son's head was terribly bruised, showing evidence of a struggle with the murderers. All the bodies were cold, indicating that the bloody work had been committed during the night. The spectacle presented was an awful one, and the apartments of the house where the bodies were found were soaked and bespattered with the lifeless blood of the victims. The appearance of the house showed that a thorough search of the premises had been made as though the object of the murders was to obtain money, and there must have been several in the party.

The Crouch family were among the most respectable and well-to-do people of the community, and were usually supposed to have large sums of money about the house. In fact they were known to secret large amounts in this way. The knowledge of the discovery spread like lightning, and within a remarkable short space of time the wildest excitement prevailed in the neighborhood. Searching parties were organized and the adjacent district was scoured in an effort to discover the perpetrators, but up to this hour no clue to them or any knowledge of their whereabouts had been obtained.

### MYSTERIOUSLY MISSING.

Two Girls, a Man and Two Boys Suddenly Disappear.

INDIANAPOLIS, May 15.—The father of Maria Wendell, a 17-year-old girl, of Oakland, Ill., was in the city yesterday hunting for her. The girl was taken out of her room, and the father does not know whether it was by kidnappers or by some unknown lover. He had traced her to this city, but lost the trail here.

Ida Goodwin, of Greensburg, is also sought for here by her mother.

George Klein went to Broad Ripple on Sunday, and has not been seen or heard from since.

Charley Jameson and Johnny Hawson, two boys, are also reported among the missing.

### M. E. CONFERENCE SOUTH.
